How To Find More Hope In Your Life

With a healthy dose of hope, people can power through stress, feel empowered to chase their dreams, and find a beacon of light when the going gets tough.

Research has shown that hopeful patients heal faster and hopeful employees are more satisfied with their jobs. Conversely, people who aren't hopeful often feel sluggish and have little motivation and energy. So how can you amp up the hope in your life? Read on!

Seek mastery: Obtaining mastery provides a sense of empowerment and purpose, instilling a sense of hope. Expand your skill set by imagining what you want to achieve and make plans to reach those goals. Write down steps you need to follow to get the results you seek.

Find role models: If you suffer from a sense of hopelessness, find people who have overcome similar situations to yours. Learn from their experiences. Surround yourself with others who can help you through particularly trying times. If you don't know anyone personally, check projecthopeexchange.com for support.

Evaluate options: Feeling trapped can stifle hope. During those times when you feel stuck, think about how you've handled similar situations in the past or how similar strategies from different situations can help you with this particular issue. Make a plan...even a few steps you can take right now can give you something concrete to focus on.

Give hope to others: Perform small acts of kindness. By doing so, you offer hope to others, and this can help boost your mood and outlook on life ... and increase your feelings of hope in the process. The positive effects of acts of kindness build on each other, so make this a part of your daily routine instead of following a one-and-done approach.

Word of the Month...

Studies have shown your income and wealth are directly related to the size and depth of your vocabulary. Here is this month's word, so you can impress your friends (and maybe even fatten your wallet!)

Augmented reality (awg-ment-ed ree-al-i-tee) noun

Meaning: A live view of a physical, real-world environment that has been created with computer-generated sensory elements like sound, video, and graphics; also known as AR

Sample Sentence: Using augmented reality, the woman could see what her living room would look like with the couch she was thinking about buying.

Dinner Time!

According to a study commissioned by Giovanni Rana, an Italian pasta maker, the average dinner table in the United Kingdom is abuzz with activity. Over the life of a dinner table:

- It will endure 1,995 drink spills, 1,160 food stains, and 594 homework sessions.
- 1,101 meals will go unfinished.
- People will fall asleep 312 times.
- There will be 93 major announcements and 374 pieces of family news shared.

Mountain-Top Trivia

Despite common belief, Mt. Everest isn't actually the highest spot on Earth – if "highest spot" is defined by being closest to the moon and stars. That title goes to Ecuador's Mt. Chimborazo, which is the highest mountain above the Earth's center because of the planet's shape.

Quotes To Live By...

"To succeed in life, you need three things: A wishbone, a backbone, and a funny bone."—Reba McEntire

"In the midst of winter, I found there was, within me, an invincible summer."
—Albert Camus

"You can't use up creativity. The more you use, the more you have."
—Maya Angelou

Rent And Save Money

People accumulate a lot of stuff throughout their lives, but they may only need certain things periodically. When that's the case, rent instead of buying to save money and help the environment!

- **Lawn and power equipment:** Rent tillers, concrete saws, carpet cleaners, and more at your local home supply store. Most rentals are for a minimum of four hours.
- **Formal clothing:** If you need to dress up for one black-tie event, check out renttherunway.com or lendingluxury.com. Choose the perfect outfit for the night, and return it once it's over. Rental prices are about one-third the retail price.
- **Party supplies:** Throw the event of the year, but don't stress too much over all the things you need to purchase. Party equipment vendors can supply dishes, décor, and furniture, all delivered right to your door.
- **Recreational equipment:** Thinking of taking up golf or going camping? If you only participate in an activity occasionally, rent from local sports outfitters and save hundreds of dollars on gear that would otherwise collect dust in your garage.

Three Unexpected Ways To Prevent Cavities

You've likely been told from a young age to brush your teeth in order to avoid getting cavities. But did you know you could do these three things to keep cavities at bay as well?

- 1. Chew gum.** Sugar-free gum and candy that uses xylitol, a natural sugar substitute, may help fight cavities because bacteria cannot use it to grow and decay teeth.
- 2. Drink with a straw.** Sip sugary beverages through a straw, and don't let the straw touch your teeth.
- 3. Eat cheese.** Research has shown that, after eating cheese, calcium levels in the mouth increase. This helps re-mineralize teeth and therefore prevent cavities from developing.

Brain Teaser...

You throw a ball as hard as you can. It doesn't bounce off a wall, there is nothing attached to it, and no one else catches or throws it back to you ... yet it comes right back to you. How is this possible?

(See page 4 for the answer.)

Real Estate Question?

Maybe you want to know how much your home is worth. Or maybe you just need a recommendation for a handyman, carpet cleaner or plumber...

Either way, I love hearing from all of my good friends and clients. And I'm happy to help answer questions you might have about anything relating to real estate or home-ownership.

Flying High

Collect frequent flyer miles and get the most bang for your traveling buck. Not sure how?

- **Keep track of miles.** If you sign up for miles, keep an eye on expiration dates. If you accumulate miles through credit cards, flying, and using specific services, consider tracking miles with a service like awardwallet.com.
- **Call the airline directly to book.** Many airline websites don't show all affiliated partners, so call and ask about all available booking options.
- **Look beyond flights.** Many rewards programs also allow users to cash in for car rentals, hotel stays, and more.

Websites For Organizational Help

Stay organized and on task!

www.calendar.google.com – Note appointments and events, color code activities, and send and set reminders.

www.getpocket.com – Store online articles so you can read them later (even when you're offline!).

www.hootsuite.com – Manage all your social media accounts in one place.

Motivate Yourself To Clean

Cleaning is one of those necessary evils that everyone has to tackle eventually. Don't put this chore off for another day. Motivate yourself and get the job done!

- **Make a cleaning play list:** Turn your dirty work into a dance party. Throw together tunes that encourage you to move and sing along to get your mind off the task at hand. Or, treat yourself to a TV show that you're only allowed to watch while you clean.
- **Let the light in:** Opening the blinds and curtains brightens up rooms – and your mood! In addition, it illuminates all the cruddy corners of your home, encouraging you to pull out that broom and dust rag.
- **Tackle a small job first:** Make your bed or clear off the dining room table, then go from there. Both significantly help clean up a portion of a single room effectively and quickly, and once you've done these things, it's easy to keep going.
- **Cash in:** Use negative reinforcement to force yourself to clean. Using a website like www.stickk.com, set a goal to clean, and if the goal is not met, you'll be forced to donate to a cause that is distasteful to you (such as to a political party you don't align with).
- **Set aside time:** Just as you would schedule a doctor's appointment or haircut, specifically reserve time to clean. Treat this like any other important activity that deserves time in your day so there are no conflicts interfering with the chore.

Wholesale Money Savers

Shopping in bulk can be a cost-effective way to save money on common items, but what's *really* worth buying?

- Liquid detergents and soaps lose potency over time, so pass on them. However, powders have an unlimited shelf life.
- Check the expiration dates on beauty products and vitamins. If you can't use it up in time, skip it.
- Perishable items like pretzels and chips may be cheaper in bulk, and are a good buy if you'll get through them quickly.
- Staples like cereal, bread, canned goods, and soda may be similarly priced as the local grocery. Factor in available coupons and buy accordingly.

Real Estate Corner...

Q. What do I need to do to sell my home?

A. Here's a list of important things you'll need to do:

- **Set a realistic price.** Homes that are over-priced can linger on the market for months, while homes that are priced correctly usually sell faster and for the most money possible. Look at recent listings in your area and their actual sales prices, and visit homes for sale in the neighborhood before deciding on a price.
- **Get your home ready to show.** Clear out clutter, freshen paint, and clean up landscaping. Remember buyers notice everything!
- **Review the promotional plan of a Home Marketing Expert.** An experienced REALTOR[®] can help you sell quickly by advertising your home in more ways than simply creating a MLS description. Plus, they can help you avoid costly mistakes on contracts and disclosures required by law to sell real estate.
